

Appl. Ser. No. 09/292,552

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims**

Claims 1-90 (cancelled)

91. (New): Computer executable instructions residing on a computer readable medium for causing a workstation of a user to display a graphical user interface, the interface comprising:

a first display area of sizes for a plurality of buy orders for a security selected by the user;

a second display area of sizes for a plurality of sell orders for the security; and

a third display area showing a single list of price levels that correspond to prices for the buy orders in the first display area and the sell orders in the second display area.

92. (New) Computer executable instructions residing on a computer readable medium for causing a user workstation to display the graphical user interface of Claim 91, wherein the third display area is located between the first display area and the second display area.

93. (New) Computer executable instructions residing on a computer readable medium for causing a user workstation to display the graphical user interface of Claim 91,

Appl. Ser. No. 09/292,552

wherein the first display area and the third display area have markings to distinguish current bid size from other sizes of buy orders in the first display area and to distinguish current bid price from other price levels in the third display area.

94. (New) Computer executable instructions residing on a computer readable medium for causing a user workstation to display the graphical user interface of Claim 93, wherein the markings are highlights.

95. (New) Computer executable instructions residing on a computer readable medium for causing a user workstation to display the graphical user interface of Claim 91, wherein the second display area and the third display area have markings to distinguish current ask size from other sizes of sell orders in the second display area and to distinguish current ask price from other price levels in the third display area.

96. (New) Computer executable instructions residing on a computer readable medium for causing a user workstation to display the graphical user interface of Claim 95, wherein the markings are highlights.

97. (New) Computer executable instructions residing on a computer readable medium for causing a user workstation to display the graphical user interface of Claim 91, further comprising at least one additional display comprising three display areas of 1) sizes of

Appl. Ser. No. 09/292,552

buy orders, 2) sizes of sell orders, and 3) price levels corresponding to sizes of buy orders and sell orders corresponding to each additional security that the user selects for display in the graphical user interface.

98. (New) Computer executable instructions residing on a computer readable medium for causing a user workstation to display the graphical user interface of Claim 97, wherein each additional display of three display areas contains markings for each additional security selected by the user to distinguish current ask and bid size from other sizes of buy and sell orders displayed and to distinguish current ask and bid price from other price levels displayed.

99. (New) A computer program for providing a graphical user interface which facilitates security trading by a user by providing a single-screen simultaneous display of non-overlapping screen components comprising: (a) a display of the user's current positions in at least one security, (b) a display of an open order list of the user, (c) a display of a trade ticket, (d) a display of offers to buy and offers to sell at least one security.

100. (New): The program of claim 99, wherein the display of the user's position in at least one security is in part a graphical display.

Appl. Ser. No. 09/292,552

101. (New): The program of claim 99, wherein the display of offers to buy and offers to sell at least one security includes a graphical display of bid, ask, and spread information for each security displayed.

102. (New) The program of claim 99, wherein the graphical display of bid, ask, and spread information uses colors to distinguish the bid, ask, and spread information.

103. (New) The program of claim 99, wherein each of the screen components are windows that can be individually removed and reinstated within the single-screen simultaneous display.

104. (New) The program of claim 99, wherein the screen components are windows, the size of which can be changed individually within the single-screen simultaneous display.

105. (New): The program of claim 99, wherein the display of offers to buy and offers to sell at least one security includes a graphical display of bid, ask, and spread information for each security displayed.

106. (New) The program of claim 99, wherein the single-screen simultaneous display of non-overlapping screen components further comprises a display of a watch list of securities selected by the user.

Appl. Ser. No. 09/292,552

107. (New) The program of claim 106, wherein the graphical display of bid, ask, and spread information uses colors to distinguish the bid, ask, and spread information.

108. (New) The program of claim 106, wherein each of the screen components are windows that can be individually removed and reinstated within the single-screen simultaneous display.

109. (New) The program of claim 106, wherein size of each of the screen components are windows, the size of which can be changed individually within the single-screen simultaneous display.

110. (New) The program of claim 106, wherein the single-screen simultaneous display of non-overlapping screen components further comprises a display of news items related to at least one security selected by the user.

111. (New): The program of claim 110, wherein the display of offers to buy and offers to sell at least one security includes a graphical display of bid, ask, and spread information for each security displayed.

112. (New) The program of claim 110, wherein the graphical display of bid, ask, and spread information uses colors to distinguish the bid, ask, and spread information.

Appl. Ser. No. 09/292,552

113. (New) The program of claim 110, wherein each of the screen components are windows that can be individually removed and reinstated within the single-screen simultaneous display.

114. (New) The program of claim 110, wherein size of each of the screen components are windows, the size of which can be changed individually within the single-screen simultaneous display.

115. (New) The program of claim 101 further comprising means for pre-filling at least some information in the trade ticket.

116. (New) The program of claim 115, wherein the display of offers to buy and offers to sell at least one security includes a graphical display of bid, ask, and spread information for each security displayed.

117. (New) The program of claim 115, wherein the graphical display of bid, ask, and spread information uses colors to distinguish the bid, ask, and spread information.

Appl. Ser. No. 09/292,552

118. (New) The program of claim 115, wherein each of the screen components are windows that can be individually removed and reinstated within the single-screen simultaneous display.

119. (New) The program of claim 115, wherein size of each of the screen components are windows, the size of which can be changed individually within the single-screen simultaneous display.

120. (New) The program of claim 115, wherein the single-screen simultaneous display of non-overlapping screen components further comprise a display of information that includes the user's balance and profit and loss.

121. (New) The program of claim 120, wherein the display of offers to buy and offers to sell at least one security includes a graphical display of bid, ask, and spread information for each security displayed.

122. (New) The program of claim 120, wherein the graphical display of bid, ask, and spread information uses colors to distinguish the bid, ask, and spread information.

## Appl. Ser. No. 09/292,552

123. (New) The program of claim 120, wherein each of the screen components are windows that can be individually removed and reinstated within the single-screen simultaneous display.

124. (New) The program of claim 120, wherein size of each of the screen components windows that can be individually removed and reinstated within the single-screen simultaneous display.

126. (New) An article of manufacture storing the program of claim 99.

127. (New) An article of manufacture storing the program of claim 100.

128. (New) An article of manufacture storing the program of claim 101.

129. (New) An article of manufacture storing the program of claim 102.

130. (New) An article of manufacture storing the program of claim 103.

131. (New) A computer program providing a real-time trading environment to a user communicating with at least one trading system over the internet from a user workstation, comprising: software resident at the workstation for receiving over the internet,

Appl. Ser. No. 09/292,552

interpreting, and displaying as non-overlapping, simultaneously displayed screen components in a single screen at least the following data: a) data relating to prices and sizes for offers to buy and sell at least one security selected by the user, b) data relating to the user's account balances and profit and loss, c) data relating to news items regarding at least one security selected by the user, and d) data relating to the user's position in at least one security.

132. (New) The program of claim 131, wherein the non-overlapping, simultaneously displayed screen components in a single screen additionally display, in graphical form, bid, ask, and spread data for at least one security selected by the user.

133. (New) The program of claim 131, wherein the non-overlapping, simultaneously displayed screen components in a single screen additionally display offers to buy and offers to sell securities in a user-to-user trading.
